AMPS Snapshot: User Registration—External Users

Do You Need an AMPS Account?

Not an employee of DLA or DFAS?
You can still obtain an AMPS account to request roles relevant to the business you want to conduct with either of these organizations.

AMPS accounts are available for various types of users: non-employees, vendors, and members of the public. Each of these user types addresses a specific set of needs.

If you are NOT using a smart card (CAC, PIV) to authenticate, you must prepare a password and answers to security questions. Follow these steps:

1. Prepare a valid password for your AMPS account. The password accompanies your AMPS-generated ID when you log in to AMPS.
2. Prepare answers for the security questions. If you ever need to reset your password, AMPS requires you to enter these answers to authenticate yourself as the correct user.
3. If you are a member of the Military, a Civilian employee of the government, or a government Contractor, identify the names and contact information of your External Security Officer and External Supervisor. The Security Officer and Supervisor approve your role requests.
4. Prepare to enter user and contact information. This information identifies you as an AMPS user and provides channels for contacting you with pertinent messages about AMPS and your account.
